ELECTION RESULTS			
	Question	Explain	
General			
1	Is results data centralized at the national level? If not, at what sub-national level(s) are they consolidated?		
2	Are there any legal barriers preventing CSOs from accessing results data from the govern- ment?		
3	Will the availability of preliminary results be any different than final/certified results?		
4	Are results provided at the polling station level? If not, why not?		
5	How likely is it that results may be available in multiple formats? For instances, images of re- sults protocols as well as HTML data or spread- sheets?		
Timely			
6	Is the timeline for the development of the poll- ing station list clear and well-known?		
7	Will results be made available "live" (as they are transmitted and received from polling stations)? If not, why not?		
8	Are there stated reasons why results from cer- tain polling stations would not be immediately available, for instance in the case of a recount or other challenge?		
Granularity			
9	Are all the relevant pieces of information that are included on the results protocol, including votes shares by all contestants, number of invalid ballots, total number of registered voters, etc. available? If not, what data is missing?		
10	Will results data clearly be linked to a unique polling station? Will additional geographic information — such as region, constituency, etc. — be included for each polling station?		
11	Will results information only be disaggregated by polling station, or also include aggregate data, such as results per constituency?		

12 What is the likelihood that fully disaggregated results data bit available for free on the internet? If not, will some or any results data be available online? 13 If some data is not available on the internet. where can you find it? 14 Will any results data have to be collected in person, or can it be emailed or otherwise accessed electronically? If so, what data will have to be collected in person? 15 Do you have to pay for access to any results data? Completeness 16 Will data regarding all polling station results in all constituencies be made available together? Or will it be released by different constituencies and have to be consolidated? 17 If applicable, are results from "special voting" — such as postal voting, out-of-country voting, etc. — also included? If not, where would you find this information? 18 In what format(s) will results data be? Is this machine readable? 19 Is there any proprietary information associated with results data? 20 Do you have to go through any application or registration process to obtain results data? 21 Is there any reason some organizations or stakeholders would be granted access to results information but not others? If so, why? 21 Is there any registration process to obtain results data? 22 Do you have to go through any application or registration process to obtain results data? 23 Is there any reason s	Availability
